PSB SUPPORT ACTIVITIES  
(June 1953)

The PSB held four Board meetings during June. Discussions of the Board which affect PSB numbered plans are reported below under the plan number. In addition, the Board considered several other subjects of interest to CIA, including:

a. PSB Support for Ambassador Lodge— During the first part of April 1953 C.D. Jackson notified the Board that he had been asked for support by Ambassador Lodge. On June 3 the Board approved a State Department proposal that a Working Group be set up to prepare and coordinate the material which it would then channel through the State Department, Bureau of United Nations Affairs in the normal manner. The Working Group is to be coordinated through the PSB Staff and to have representatives from State, Defense and CIA; the CIA representative is [REDACTED]. The Working Group has held several preliminary meetings to discuss procedural and intelligence support matters. Dr. [REDACTED] of the PSB Staff has located a repatriated POW from Korea who has agreed to tell his story to selected individuals in New York during the UNGA session this autumn.

b. Financial and Administrative Support for PSB— The PSB support agreement expired June 30. In view of the probable hiatus between the end of June and the date of the emergence of the successor to PSB, the Board on June 10 approved support for this period in accordance with the already-approved budget.

c. Coordination of Technical Planning for Psychological Operations— the Board on June 24 endorsed the recommendation of Mrs T.H.E. Nesbitt of the State Department that a standing inter-departmental committee be created to coordinate technical planning in the broadcasting field. The Board agreed that Mr. Nesbitt should be asked, in consultation with others, to draft specific terms of reference for submission to the Board.

d. On April 9 the Board discussed NSC 86/1 and agreed that the NSC Planning Board should be asked to prepare for NSC consideration a clarification of the language of 86/1 concerning "Key Personnel". On June 4 the NSC approved the interpretation of "Key Personnel" as including all satellite nationals whose escape, or utility after escape, would contribute significantly to the objectives outlined in NSC 86/1.

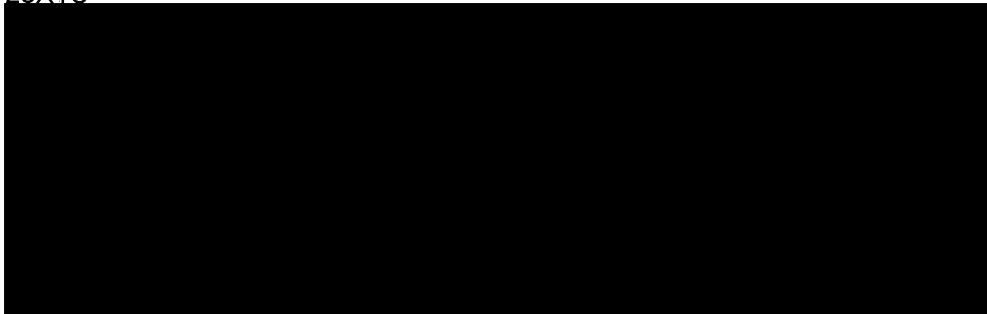

Many of the panels were active during the month. Summarized results follow:

a. D-23 (Southeast Asia): A revised version of the plan with respect to the Thai peoples of southeast Asia was presented to the Board at its meeting on June 17. The suggested CIA position on the paper was contained in a memorandum for the DCI from [REDACTED] DC/FE, and was developed from comments suggested by the PP staff, the PM staff and the FE division. Mr. C. D. Jackson is now engaged in resolving inter-agency differences of opinion on the plan.
